🔗 Portfolio

👤 PROFILE

Full-Stack Web Developer with a solid foundation in both front-end and back-end technologies, skilled in HTML, CSS, JavaScript, React.js, Next.js, and Node.js. Experienced in building responsive, user-focused applications, with expertise in databases like MongoDB and Firebase. Driven to create scalable solutions that enhance user experience and support business goals. A collaborative team player, eager to contribute to innovative projects through a software engineering internship.

📁 PROFESSIONAL EXPERIENCE

Junior Factory Officer, Ahinsa Organic Tea 2020 – 2022
Coordinated with senior management and factory staff to optimize production efficiency and minimize downtime. Morawaka

🎓 EDUCATION

B.Sc (Hons) in Computing & Information Systems, 2022 – present
Sabaragamuwa University of Sri Lanka

G.C.E Advanced Level (Physical Science Stream) 2019 – 2020
Telijjawila Central College Matara

📁 PROJECTS

Patient-Management-System (Individual) 🔗 2024 – 2024
Build a healthcare platform that streamlines patient registration, appointment scheduling, and medical records, and learn to implement complex forms and SMS notifications.

Next JS, Twilio, TypeScript, Tailwind CSS

Tasty Trails - Food Delivery Website (Individual Project) 🔗 2024 – 2024
Developed a modern food delivery web application utilizing providing a seamless ordering experience with secure payments and real-time order tracking.

React JS, MongoDB, Express, Node JS, Stripe

Taprobana Taxi-AI-Driven Trip Planner and Taxi Booking Platform (individual Project) 🔗 2024 – 2024
Created an AI-driven taxi booking platform featuring a smart trip planner for optimal routes, dynamic fare calculation, and real-time updates, ensuring quick and reliable transportation services.

React JS, Gemini AI, Firebase, Tailwind CSS

EcoBin-smart Garbage Management System (Group)

2024 – 2024

An IoT-based Innovative Solution for Waste Management EcoBin is a cutting-edge project designed to revolutionize waste management practices. The solution integrates a Garbage Separation System with an advanced Garbage Monitoring Application and Website.

Flutter, React JS, Firebase, C, Arduino IDE

AGROAI-IoT-based Automated Tea Plantation System (Group)

2024 – present

Developed an IoT-based automated system for tea plantations that includes disease detection, pH monitoring, and automated water control System With Web Application.

React JS, Firebase, Google Cloud, Gemini API, Arduino IDE

TECHNICAL SKILLS

Programming Languages — JavaScript | PHP | HTML | C++ | Python

Frameworks/Libraries — React | Next.js | Node.js | Express.js | Laravel | TailwindCSS | Shadcdn | MUI | Bootstrap | Chakra UI

Databases — Firestore | MongoDB | MySQL

Technologies and Tools — Photoshop | Figma | Postman | Trello | Wordpress

Version Control — Git | GitHub

SOFT SKILLS

Time Management | Communication skills | Leadership & Team work | Flexibility and Fast learning | Adaptability Decision making | Problem solving skills

INTERESTS

Traveling | IoT Development | UI/UX Design

EXTRA CURRICULAR ACTIVITIES

Active Member, IEEE Student Branch
Sabaragamuwa University of Sri Lanka

Active Member, Society of Computer Sciences
Sabaragamuwa University of Sri Lanka

Volunteer Teaching, IoT Development
STEMUp Educational Foundation

NON-RELATED REFERENCE

Mr. P. Vigneshwaran

Lecturer (Probationary)

Department of Software Engineering, Faculty of Computing,
Sabaragamuwa University of Sri Lanka.
